EDUCATION

University of Pennsylvania, Philadelphia, PA

Candidate for B.A. | Major: Economics | Minors: Statistics and Machine Learning

Relevant Coursework: Machine Learning in Business, Accounting, Advanced Probability, Economic Statistics

May 2027

GPA: 3.84

PROFESSIONAL EXPERIENCE

PwC Strategy& | Deal Technology Strategy Intern | New York, NY

Jun–Aug 2026

- Rebuilt the group's agent tooling and project infrastructure, integrating Claude Code and VS Code more effectively with SharePoint so agents could navigate project files and support AI diligence and value creation.
- Designed a Git-style review and merge process for consulting work, standardized agent instructions and reusable skills, and presented the approach to 100+ Strategy& professionals + partners.

Radar Autonomy | CEO & CTO | New York, NY

Jan 2026–Present

- Founded an agentic autonomous vehicle depot sourcing company; now pursuing a sale of the original business's IP following a pivot into custom reinforcement learning environments.
- Developing a scalable approach to long-horizon RL environments using real business workflows, permissioned execution data, human feedback, and measurable outcomes; secured \$10,000 in contracted revenue.
- Targeting a \$100,000 raise at a \$10 million valuation now, followed by a planned \$5 million raise at a \$50 million valuation within three months.

Fingerprint Group | AI Operations Intern | Philadelphia, PA

Sep 2025–Present

- Built and deployed Claude Code and Claude Skills agents for paid search optimization and media briefs, automating campaign analysis, keyword expansion, and draft strategy documents.
- Mapped marketing workflows and defined time-to-brief, campaign performance, and error-rate KPIs with media and analytics teams to guide automation priorities and iteration.

Etienne Lane VC | Venture Capital Fellow | Remote

Sep 2025–Present

- Built agents for CPG and creator-led startup sourcing, data collection, investment briefs, personalized outreach, and intro-call scheduling using Claude Code and Claude Skills; supported market maps, TAM analyses, and creator partnership research.

GradeWiz (YC-backed) | Student Success Engineer | New York, NY

Jun–Aug 2025

- Ran five NYC private-school pilots, captured teacher feedback, and signed two clients; embedded grading agents in teacher workflows through data ingestion, OCR, rubric parsing, orchestration, and model fine-tuning.
- Partnered with LilyPad Group on a national ambassador campaign, outreach playbooks, and school implementations; improved prompts, OCR, batching, and caching, and instrumented evaluations of latency, scoring agreement, accuracy, bias, and feedback quality.

LEADERSHIP EXPERIENCE

Education Consulting at Penn (ECP) | Co-Founder/President | Philadelphia, PA

Sep 2024–Present

- Founded and scaled a 40+ member education-equity consulting group, leading recruiting, client acquisition, and project mentorship for schools and nonprofits.
- Led a nonprofit turnaround that grew membership 75%; organized events with SpaceX's Ad Astra program attracting 60+ participants.

PROJECTS AND RESEARCH

AI Projects

Jun 2025–Present

- Built LLM applications and agentic workflows with Lovable, Claude Code, Cursor, and n8n, including Newsglide.org, E&B Agentic Solutions, and Americanaidream.org.
- Created a four-discipline agent swarm for idea generation, specifications, coding, and testing across 40+ projects; reached the Anthropic x Penn Hackathon semifinals.
- Built options and prediction-market research systems combining news, earnings, market data, macro, quantitative, flow, and risk agents with evaluations, audit trails, and human approvals.

SKILLS

Technical: Data Analysis, Python, SQL, JavaScript, R, Mathematica, RL, Agent Orchestration, AI Workflows

Interests: Rugby, Tennis, National Powerlifter, Poker, Chess, Running, Cooking, Trading
